## "German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M.E. Conference, April 25, '90.

**Old Words and New.**

Some of the words used by old-fashioned country people, and laughed at by those who hear them, are not corruptions of language, but merely survivals of old forms—forms so old that many educated persons have forgotten, or perhaps have never known, that they were once in good and regular standing as English words.

If an old woman "axes your pardon" she is speaking as the most careful English scholars spoke for hundreds of years, down almost to the end of the Sixteenth century. Thus in Wycliffe's New Testament—about 1380—we read, "What man of you is, that if his axe, axe him breed, whether he wole take hym a stoop?" And Coverdale's translation of the gospel according to St. Matthew, published in 1535, has "Axe and it shall be given you."

So, too, when the same old woman says "piny" instead of penny, she is only following the ancient usage. In William Browne's "Britannia's Pastorals," printed in 1616, the poet contrasts "the ruddy piny with the lighter rose." It amuses the schoolgirl of the present day to hear lilacs called "laylocks," but Walter Savage Landor always said "laylocks," following, as his biographer tells us, a pronunciation "traditional in many old English families."

When an Irishman speaks of his "fader and moder" he is guilty of nothing worse than talking older English than we are accustomed to hear. "Worschipe thi fadir and thi modir," says Wycliffe's New Testament.

"Axe," "laylock" and the like are now vulgarisms, and as such are to be avoided, but it is well enough to know that they were once as well received in good society as their successors are at present.—Youth's Companion.

**How Insects Breathe.**

If we take any moderately large insect—say a wasp or a hornet—we can see, even with the naked eye, that a series of small spotlike marks run along the side of the body. These apparent spots, which are eighteen or twenty in number, are in fact the apertures through which air is admitted into the system, and are generally formed in such a manner that no extraneous matter can by any possibility find entrance.

Sometimes they are furnished with a pair of horny caps, which can be opened and closed at the will of the insect; in other cases they are densely fringed with stiff interlacing bristles forming a filter, which allows air, and air alone, to pass; but the apparatus, of whatever character it may be, is so wonderfully perfect in its actions that it has been found impossible to injure the body of a dead insect with even so subtle a medium as spirits of wine, although the subject was first immersed in the fluid and then placed beneath the receiver of an air pump. The apertures in question communicate with two large breathing tubes, which extend through the entire length of the body.

From these main tubes are given off innumerable branches, which run in all directions and continually divide and subdivide, until a wonderfully intricate network is formed pervading every part of the structure and penetrating even to the antennae.—Lutheran Observer.

**SUMMONS.**

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for Washoe County.  
The State of Nevada sends to Anne Stouter greeting: You are hereby required to appear in an action commenced against you as defendant by Joseph Stouter as plaintiff in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of day of service), if served in said county, or twenty days if served out of said county; but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. All of which more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

COLONIZING NEGROES ON THIS COAST.

It is announced that a scheme for colonizing negroes on the Pacific Coast is under full headway and will be given a fair trial. Senator Stanford is said to be interested in the movement, and it is predicted that within a year fifty thousand or more colored people may find employment in the Pacific States.

The New York Herald approves the scheme, and says there is a good deal of sound horse sense in the movement. The Chinese are neither liked or trusted, as they are not simply aliens by birth, but by all the habits and customs of life. The negro, on the other hand, has a vote, and he will live and die in the country, and he wants a home and a chance to live. The South can spare a sufficient number to supply the needs of California, and that State, the Herald says, is offering homestead inducements which ought to tempt a great many of the more thrifty among the colored people to try their fortune in this new field.

The Herald is probably unaware of the fact that some years ago several hundred negroes were taken to California by Carr and Haggin with the view of colonizing them on their ranches in Kern county. For some reason the experiment was not a success, and it was reported that many of the colored people drifted back to the States whence they came originally. Possibly if a large number were to come to the coast they would be more contented. As the Chinese are steadily decreasing in number and must continue to do so if the Restriction Act is enforced there ought to be room for several thousand colored people to take the places of the Chinamen as domestics and as laborers where the wages and the work would not be satisfactory to white people.

PATTISON FOR PRESIDENT.

Stephen B. Elkins, who says he likes to talk politics, and, if reports be true, is not over scrupulous in his methods of conducting political campaigns, is of the opinion that Governor Pattison of Pennsylvania is the most formidable rival of Cleveland and Hill for the Democratic nomination for the Presidency. Mr. Elkins says nearly all the Western men he has talked with spoke with the greatest enthusiasm of the handsome Pennsylvanian who has twice carried the greatest Republican State, and he would be sure to carry it again for the Presidential ticket if he should be at its head.

While Mr. Elkins dissents from the opinions of the Western men regarding Governor Pattison's ability to carry Pennsylvania next year, he is too shrewd a politician to not see that he is about as strong a man as the Democrats could nominate for President. As Governor of Pennsylvania he has proved to be above reproach or suspicion of corruption. He is able, honest and fearless in the performance of his duty, and the implacable foe of plundering cliques and rings. He is popular in his own State, which he has carried twice for Governor, overcoming immense majorities. He has a much larger following in the West than Cleveland, who, by reason of his opposition to silver, could not expect to carry a State west of the Ohio against a free coinage man.

UNION PACIFIC AFFAIRS.

A meeting of the Directors of the Union Pacific Railroad was held in New York yesterday. It was attended by Gould, Dillon and all the magnates of the road. A statement was issued to the effect that holders of more than half the floating debt of the company had assented to the plan for extending the debt by the issue of notes payable in three years, and that the Board of Directors had made the necessary order to issue such notes and retire the entire floating indebtedness of the company.

This will prevent the road from going into the hands of a receiver, as was intimated would be the result if provision was not made for retiring the floating debt. The company is indebted to the Government over sixty millions of dollars. A part of this debt will be due in 1893, and unless the next Congress passes an Act extending the time of payment the road may become the property of the Government or of a new company.

Bar Harbor is to shortly have a novel entertainment, consisting of nothing less than a real shipwreck, so as to demonstrate for a consideration, the perfect working of the life-saving service. An old schooner is to be used, and a number of foolhardy sailors have agreed to risk their lives, and "all the wealth and beauty" of Mount Desert and vicinity are to be there to see them.

A dispatch from Cape May, to which the seat of government has been removed from Washington this Summer, says President Harrison, through Private Secretary Halford, denies the story that he is about to decline over his own signature that he will refuse to be a candidate for re-nomination.

EXECUTION OF A PRINCESS

The Farmers' Alliance in Virginia—An Interesting Decision.

A FIRE AT WILLOWS, CAL.

Forest Fires Near Nevada City—President Harrison on the Wing—Rey Del Rey Wins a Big Race—A Record Lowered—Destructive Hall Storm.

The President.

NEWBURGH, N. Y., August 18.—The President's train arrived here this afternoon at three. There were three thousand people at the station cheering as the train stopped. The President made a brief address complimentary to Newburgh and its citizens and surroundings, which was frequently interrupted with cheers. The party was lastly cheered as the train left the station.

ALBANY, August 18.—Kingston was reached promptly on schedule time. Here several hundred people were present. After shaking hands for five minutes the President made a brief speech. The train reached Albany shortly before 6 o'clock. A Presidential salute greeted the party. They were driven to the City Hall, where thousands waited about the platform, on which were seated Mayor Manning, Governor Hill and State officers. The President received an ovation as he approached the front of the platform. Mayor Manning then welcomed the President on behalf of the city, after which Governor Hill welcomed the President on behalf of the State. The President replied, returning thanks for the cordial reception.

Execution of a Princess.

CALCUTTA, August 18.—The execution of the Manipur princess has created a profound sensation through India. The press of India, which is printed in the native language, strongly condemns the so-called hurried orders issued for her execution, which the press declares was hastened lest the English opinion should undergo a change in favor of the condemned princess after the publication of her defense.

The Tongal General's execution particularly shocked the native feeling. It is asserted that he was too ill to stand up and the executioners were obliged to lift him on the stool before the drop fell.

The Charleston.

VALLEJO, Cal., August 18.—The Charleston will get away Wednesday about noon. She is taking on stores for the other ship in the Asiatic squadron. Her destination is China and she will leave there for New York, by way of the Suez canal to take part in the maneuvers of the White Squadron next Fall. The crew of the Charleston have had a marble monument placed in Calvary Cemetery, San Francisco, over the grave of their shipmate, Joseph Brown, who was murdered at San Diego. The monument is of marble 10 feet in height.

Forest Fires Near Nevada City.

NEVADA CITY, Cal., August 18.—The forest fires that started two weeks ago on the San Juan is still burning and several towns have had narrow escapes. A portion of the flames belonging to the Milton and Badger Hill Milling Company have been destroyed. The bridge across the South Yuba river, between this city and North San Juan, is threatened by the fire prevailing along that stream. For days the forest between this city and the Banner Mountains has been burning, but no damage is anticipated.

A Fire at Willows.

WILLOWS, Cal., August 18.—Yesterday afternoon a fire broke out in the addition lately made to the property of the Willows Agricultural Association, destroying twenty-seven stalls, and from thence passed to Chinatown and burned thirty laundries and one store. The wind carried the sparks to a warehouse containing 10,000 tons of wheat, but the fire was extinguished before the grain was injured. Loss \$5,000. A supposed case of boy's smoking.

Rey Del Rey Wins Again.

MORRIS PARK, August 18.—The Omnibus Stakes was the feature of the day's races. It was for three-year-olds at \$250 each with \$10,000 added, a mile and a half, and there were 12 starters. Coming down the stretch everybody was at whip and spur, and each horse straining every nerve and muscle. Rey Del Rey came from among the bunch with a tremendous burst of speed and won the race of the season in 2:28.

The Farmers' Alliance.

RICHMOND, Va., August 18.—The State Alliance met here to-day with closed doors. President Page delivered an address in which he urged the members to stick to the Omaha convention platform, and also declared that the Alliance was not a political party and urged members to endeavor to secure the election of men to the Legislature who would vote for a State Railroad Commission and provide for the adjustment of the State debt.

An Interesting Decision.

CHICAGO, August 18.—Judge Blodgett in the United States District Court rendered an interesting decision in a suit brought by a score of Chicago cigar importers to recover alleged excessive duties. In Cuba there is an internal revenue tax of fifty cents per 1,000 on cigars and appraisers included this in the dutiable value. Importers contested this ruling but Judge Blodgett holds that the Cuban tax enters into the cost of production.

Fire at Dayton, Washington.

DAYTON, August 18.—Late last night a fire started in the rear of the Farmers' Alliance agricultural store and spread to the adjoining buildings. A high wind was blowing and the water supply was inadequate, but by 1 A. M. the fire was under control. Four wooden and one brick buildings were totally destroyed, and three others greatly damaged. Loss \$26,000. The fire was supposed to be incendiary.

Mortimer in Custody.

CHICAGO, August 18.—W. E. Mortimer, Secretary and Treasurer of the fraudulent National Capital Savings Building and Loan Association, arrived from Minneapolis to-day in custody of Inspector Stuart. He is confident that he can acquit himself of any wrong doing in connection with the management of the Association and that his son Louis will return and straighten out his affairs.

A Destructive Hall Storm.

WADSWORTH, Minn., August 18.—The most destructive hail-storm that ever visited this section, occurred at Deer Creek, Ottertail county, and vicinity late yesterday afternoon. It is estimated that between 2,000 and 15,000 acres of grain is laid low. The storm lasted half an hour and cut a swath five miles wide.

The Nebraska Independent Convention.

HASTING, Neb., August 18.—The Independent State Convention organized this afternoon with 100 delegates, representing 76 of 89 counties in attendance. Addresses were delivered and a recess taken to 8 P. M.

Record Lowered.

CHICAGO, August 18.—At the Garfield Park races to-day, Racine's great record of 1:44 1/4 for a mile and 70 yards, made at Saratoga last week, was lowered to-day by Whitney, who made the distance in 1:44 1/4.

Bakers in London.

There are 14,000 bakers in London, of whom 5,000 are foreigners, mostly Germans. Foremen bakers get from five dollars to eight dollars a week, second hands from four dollars to five dollars a week, third hands from two dollars to three dollars a week. The hours of labor range from twelve to fifteen hours a day and on Saturdays from twenty to twenty-three hours. Most of the small bakers act as their own foremen.

The majority of the bakeries are miserably underground cellars, overrun with roaches, mice and other vermin. The cellars are so ill ventilated and so unhealthy that the bakers are subject to a number of special diseases, all of which may be communicated to the consumers of the bread they make, for they are mostly diseases of the skin, and the bakers in these dens, as a rule, work stark naked from their waists up, and there is generally no accommodation of any kind for washing except in the kneading tubs.—New York Recorder.

The Presence of Fame.

The presence of fame is very infrequent. The village gazette in wonder at the return of the famous man who was born on the farm under the hill, and whose latent greatness nobody suspected; while the youth who printed verses in the corner of the county paper, and drew the fascinated glances of palpitating maidens in the meeting house, and seemed to the farmers to have associated himself at once with Shakespeare and Tupper and the great literary or "littery folks," never emerges from the poet's department in the paper in which unconsciously and forever he has been cornered. It would be a grim Puritan jest if that department had been named from the corner of the famous dead in Westminster abbey.—George William Curtis in Harper's.

A Soft Answer.

Francois is an excellent servant, and always sits up for his master. One night Viscount de B—, Francois' master, came home from his club at 3 o'clock in the morning. He found his faithful valet in the bedroom, reclining fast asleep on the sofa near the fire. Instead of waking him, he quietly undressed and got into bed. Ten minutes afterward Francois awoke and exclaimed: "Past 3 o'clock and the best hasn't come in yet!" The viscount raised his head and said, in a very gentle voice: "You may go to bed, Francois; the beast has got back to its lair."—L'Univers.

A professor of Yale has confessed to a superstition. It consists of putting on and taking off his clothes in a regular way. The right shoe, the right leg of his trousers, the right sleeve to shirt or coat, are always put on first, because of a foolish idea that somehow or other mishaps would follow favoring the left shoes, sleeves and legs in such a way.

A Cloudburst Destroys a Village.

VIENNA, August 18.—A dispatch announces the partial destruction of the village of Kallman by a cloudburst. Half the houses were destroyed and many people and cattle drowned. The cloudburst occurred at midnight and the water loosened an avalanche. Forty people were drowned.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.

Dr. Hordan has gone to Virginia City to practice his profession. He will visit Reno every Saturday, remaining until Monday.

Lee McLothe is reported as being much better and a slight improvement was observed in the condition of Morris Davis yesterday. Both patients are quarantined.

John Trolson, who has been cashier of the express department of Wells, Fargo & Co. in Virginia City for ten years, has been promoted to the agency of the company in that city.

The O. M. Mitchell Relief Corps have been invited by the Board of Directors to take charge of the fancy work and art department of the Pavilion during the State Fair. Should the Corps accept the invitation it would insure the success of that department.

The Stock Grower says. "Eighty-eight New Mexico steers, averaging 803 pounds, sold in Kansas City last week at \$1 80 per 100 pounds. If any stock grower can figure out a profit in raising steers for such money he can make figures lie." There is nothing in raising scrub cattle for the eastern market.

The Truckee Republican says "A few days ago, while working in the timber near his mill, which is situated about five miles south of town, George Schaffer discovered an abandoned tunnel on a quartz ledge. It is in the side of Snohomish Mountain. Some of the rock was taken out and assayed \$47 40 per ton. The tunnel is probably thirty years or more old."

The State Agricultural Society have had the Pavilion newly painted inside and out and it now presents a very creditable appearance, and the exhibits displayed at the coming State Fair will show off to much better advantage than heretofore. Company C, which leases the Pavilion, will give a grand fan party on Friday evening, August 28th. It will be a new and novel affair, and the fact that it is to be given by the military boys insures it to be a social success.

Attention, O. M. Mitchell Post.  
A special meeting of O. M. Mitchell Corps is hereby called, to meet at their hall on Wednesday, August 19, 1891, at 2 p. m. It is earnestly requested that every member of the Corps be present as business of great importance is to come before the Corps.

P. STANTON MARSHALL,  
RENO, August 18, 1891. Secretary.

The Young Colonial Who May be the Last of His Dynasty.

There is a spirit of unrest in China and it is not unlikely that it may culminate in revolution and a change of rulers. The present Emperor is the ninth of the Tatar dynasty, which by a large majority of the people are looked upon as usurpers. "Out with the Tartar," therefore, is the cry for which every Emperor of China listens. Tait-tien, the present Emperor, was born in Peking, August 15, 1871. His mother, the Empress Regent, brought him up carefully. She is a wise woman of 50 years old and said to be a great boxer and fencer. She encouraged the construction of telegraphs and railroads and other appliances of modern civilization. The young monarch was, according to the Court etiquette,

never punish, but underwent chastisement vicariously through "a whipping boy," who received the blows instead of his imperial master. The young Emperor, however, was never a real boy. Always veiled from vulgar eyes, with miles of palace halls and vast expanses of vari-colored silken hangings, he has had, under the iron rule of celestial precedent, no opportunity of becoming acquainted with the outside world. He was married in 1889 with great pomp to Tet-Ho-Na-Ho, a daughter of Deputy Lieutenant General Kwei Hsiang. He chose his bride from several hundred girls. The cost of the wedding festivities was said to be \$10,000,000. Tait-tien is, perhaps, exempt from the dangers of assassination. With the astute Hi Hung Chang, as Viceroy and Prime Minister, it is doubtful if any revolutionary party could obtain any influence during his life, and he is now 70 years old and loyal to the present dynasty.

BOARD OF EQUALIZATION.

The Business Transacted Yesterday.  
The Board of Equalization was in session again yesterday, all the members being present, and proceeded with the business of equalizing the assessment roll. The Board cited the following named persons to appear on Tuesday, August 25th, and show cause why their assessments should not be raised as follows:  
Stephen Ede from \$5,700 to \$6,700  
Amos Alt from 1,750 to 2,250  
G. H. Cunningham from 700 to 1,000  
L. Bonstein from 700 to 1,000  
Wm. James from 325 to 500  
J. M. Fulton from 1,500 to 1,750  
A. Patterson from 800 to 1,050  
I. B. Marshall from 7,500 to 8,400  
Tim O'Keefe from 2,450 to 3,500  
Jeo. Smith from 450 to 700  
Theo. Winters from 27,000 to 40,000  
T. Sandeen from 500 to 1,000  
Verdi Mill Co. from 12,000 to 20,000  
P. J. Kelly from 7,200 to 8,000  
Jas. Sullivan from 7,600 to 8,000  
The Board made the following reductions upon the showing of the parties interested:  
William Wright reduced \$500.  
Mrs. W. E. Mitchell reduced \$250.  
B. L. Capurro reduced \$50.  
Jerry Corecco reduced \$500.  
A. M. Lamb reduced \$150.  
Ed. Bates reduced \$1,270.  
Several other taxpayers appeared before the Board and asked for reductions, but were refused.  
Board adjourned until Tuesday, August 25th.

SUDDEN DEATH.

An Inquest Will Probably be Held.  
Mrs. E. R. Connors, who was with L. Lewis in a variety store on Commercial Row, and lived in the alley back of the store, was taken sick yesterday morning. Later in the day a physician, so Lewis says, was called to see her. Shortly afterwards, Lewis says, he entered the house and found the woman lying lifeless on the floor.  
The authorities suspect foul play or suicide and will probably inquire into the cause of her death this morning. It was rumored last night that the physician who was called to attend the woman advised Coroner Peers to take charge of the body. Lewis says Mrs. Connors has a sister residing at Norfolk, Virginia, and that he informed her by telegraph of the death.

ABUNDANT CROPS.

A Good Year for Farmers.

The American Agriculturalist, in its annual review of the harvest makes estimates, which, if within bounds, makes this a profitable year for farmers. It estimates that the farm profits this year will be \$1,000,000,000 more than during the recent years of depression. On the basis of present prospects the corn crop of 1891 is estimated to be 2,000,000,000 bushels; wheat 500,000,000 bushels; oats 622,000,000 bushels. In 1890 the wheat crop was 1,500,000,000 bushels, and oats 24,000,000 bushels. The total yield of wheat, corn and oats on the basis of this estimate will be 28.8 per cent. greater than last year, and 14.7 per cent. above the average of the preceding eleven years. On this basis the value of the corn crop will be to farmers \$1,000,000,000; wheat, \$500,000,000, and oats \$250,000,000. This is \$150,000,000 more than the value of these crops in 1890, and \$625,000,000 more than the value of the average of these crops from 1880 to 1890, inclusive.

Cotton and rice will command better prices than last season. Cattle are worth one-third more than eighteen months ago, with other live stock in proportion. Tobacco is advancing heavily. Hops are firm at good prices. Winter fruit will command large values, and all vegetables are yielding fairly, with every indication of a remunerative market.  
The export outlook was never better. Immensely increased sums will be sent to the United States for our produce. Of course, ulterior influences may interfere with these brilliant predictions, but it is almost certain that farmers will receive better profits on their crops than ever before.

ROUND SHOULDERS.

How Persons May Remedy Them.  
The Housekeeper says: "Round shoulders are almost unavoidably accompanied by weak lungs, but may be cured by the simple and easily performed exercise of raising one's self upon the toes, leisurely, in a perpendicular position, several times daily. Take a perfectly upright position, with the heels together and the toes at an angle of forty-five degrees. Drop the arms lifeless at the sides, animating and raising the chest to its full capacity muscularly, the chin well drawn in. Flowly rise up on the balls of the feet to the greatest possible height, thereby exercising all the muscles of the legs and body; come again into a standing position without swaying the body backward out of the perfect line. Repeat the exercise, first on one foot then on the other."

The World Enriched.  
The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

A CLOSE CALL.

Thirty-six freight cars passed over five-year-old Eddie Quinther at East Buffalo, but, strange to say, his only injury is a slight cut on the head. He was standing on the track and was struck by the train, which was drawn by a switch engine. ## Effect of Cold and Accident on Hair.

Arctic voyagers and other travelers in frigid regions have frequently been subject to canities as the effect of cold, a circumstance quite in keeping with the fact that animals, such as the bear, fox and lemming, inhabitants of the extreme north, have hirsute coverings of white. The writer was once acquainted with a man named Sweeney, formerly a sailor, whose hair was jet black except a snow white tuft about the middle of the frontal suture, where the scalp had been taken off through a fall from a mast on shipboard. Where burns and severe local inflammations have resulted in a loss of a portion of the scalp, the injured part has similarly been covered in many cases with a growth of white hair.—Hyland C. Kirk in New York Times.

When a Man Flatters.

As many sirens as there are, so many are their ways of charming. There are assaults and there are sieges, open battles and ambushes. The platonic affection stalking horse is one of the most frequent. There is ever danger present when a woman listens with patience to a man's talk about himself. Woman flatters man on the qualities by which she enslaves him. A woman never tells a man that his will is of iron, save when she is bending it to her own uses. Some are attracted by the simplicity of a character; but to many the difficulty of understanding a character constitutes its greatest, perhaps its only, charm, so that when once they have probed it they throw it aside as of no more interest.—Murray's Magazine.

Not Cast Down.

"I have always held," said a cheerful man, "that a happy disposition and ample wealth would enable one to bear up pretty well under the ordinary misfortunes of life. Riding up town the other day on the elevated railroad I sat next to a fine looking couple, evidently husband and wife, and evidently possessed of abundant means. As they chatted along pleasantly together he mentioned incidentally the fact that he had that morning lost \$4,000 on stocks. She said, 'Did you?' and then they didn't bother about that any more, but branched off on something else."—New York Sun.

A Two Edged Argument.

Fraulein Silberstein—Why, papa, you might have advanced that money to Lieutenant Von N—!

Herr Silberstein—I know him too little.

Fraulein S.—Ach, that is only an excuse, for you refused Herr X— as well only the other day.

Herr S.—I know him too well.—Lustige Blätter.

Knew What He Wanted.

Seedy Individual—Introduce me to your friend.

Jones—Not much. I'd rather lend you the money myself.—Harper's Bazar.

Policemen Losing in Height.

The first batch of twenty policemen have been examined under the order recently issued by the mayor. Of the twenty men examined but one has retained the same proportions throughout. This man is Officer Jim Eggleston, of the First District. He is exactly the same height as when he was examined for appointment under this administration, and weighs not an ounce more or less. Of the others one was almost an inch taller than when he went on, but the rest had fallen away. One was found to be more than an inch shorter than when appointed. All were over weight except Officer Eggleston. — Cincinnati Commercial-Gazette.

Modification Extraordinary.

The hen of a farmer who lives near Tionesta and a wild pheasant have both been laying eggs in the same nest. After the nest was full with about an equal number of both kinds of eggs both fowls began to set. They occupied the nest at the same time and there was a constant struggle going on. The farmer concluded that neither could accomplish anything at the rate they were quarreling, and he thought to solve the difficulty by removing the hen's eggs from the nest. This only served to make matters worse, and now both fowls are trying to hatch young pheasants.—Philadelphia Times.

A Youthful Idea.

A bright little fellow, hearing his grandfather talk of the dunhouse, pondered in his youthful and inquisitive mind what that might be. Aunt Alice, a young lady of the household, was the other day made the confidant of his conclusions. "I know," said he, "the arm-house is where all the girls wear dresses 'bout as long as sleeves in 'em."—Hartford Post.

A Cruel Reason.

He—She's a remarkable girl. She doesn't hesitate to tell everybody that she is twenty-seven. Don't you admire her for it?

She—No, because I know she is thirty.—Life.
